

65. The method according to claim 64, wherein said method further comprises changing at least one of said predetermined target value and series of questions in response to said data.

66. The method according to claim 63, wherein said condition is a cardiac associated disease.

REMARKS

On December 22, 2000 in the prior Office Action, the Examiner allowed the single claim, Claim 1; the applicant had previously cancelled all remaining claims by Preliminary Amendment. Due to the issuance of the parent application including a claim very similar to Claim 1, applicant respectfully requests the entry of an amendment.

CONCLUSION

If the examiner has questions, the examiner is invited to contact the applicant's attorney listed below.

Respectfully submitted,
